CERRA's Mission Statement

CERRA's mission is recruiting, retaining, and advancing South Carolina educators.

Section One: Overview of College Partnerships

The College Connection

Each college partnership reflects a certain degree of uniqueness based on specific needs of the high schools being served and the resources and expertise available at the cooperating college. Ideally, College Partners bring a wealth of knowledge about education to the course, and in turn, the experience of working in high schools is valuable to them. The high schools benefit by introducing its students to post-secondary opportunities. Colleges benefit by having the opportunity to showcase its campus and programs to bright young people, and, most importantly, students benefit by having the opportunity to study with both high school and college educators.

After working with the college partner, visiting, and taking part in special activities on campus during the year, many Teacher Cadets choose the partner institution to attend after high school.

Selecting the Right Person as the College Partner Coordinator

Selecting the right person to be the College Partner Coordinator is essential for the success of the partnership. Listed below are criteria that colleges should consider when selecting someone to serve as the College Partner Coordinator:

- Coordinators should have the desire to work with high school students. Cadets are extremely bright and talented, but they are still high school students with the unique personalities and learning styles of adolescents.
- Coordinators should be interested in going into high schools – places with bells, noise, and rules.
- Coordinators must *buy into* the hands-on experiential model of teaching and learning utilized in the Teacher Cadet curricula.
- Coordinators should be enthusiastic people; our goal is to help young people become excited about teaching.

Purpose

The Teacher Cadet program is considered an introduction or orientation to the teaching profession. Its main purpose is to encourage students, who possess a high level of academic achievement and the personality traits found in good teachers, to consider teaching as a career. An important secondary goal of the program is to provide these talented, future community leaders with insights about schools. Although the course is taught at the college freshman level, the curriculum includes simulations and other “hands-on” activities designed to excite students about teaching. Students are exposed to teaching careers and the education system through a variety of teaching methods.

Conditions for Participation in SC’s Teacher Cadet Program

Teacher Cadets

Conditions for acceptance:

- Have a GPA/GPR of at least 3.0 on a 4-point scale (B average).
- Be enrolled in a college preparatory curriculum.
- Be recommended in writing by three or more instructors.
- Submit an essay on why he/she wants to be in the class. (The Teacher Cadet instructor will keep this essay on file.)
- Be a senior or junior.
- Participate in an interview, if required.
- Agree to provide data for program evaluation via a brief pre- and post-survey, including a valid social security number for data collection and reporting purposes only.

Conditions while enrolled:

- Agree to adhere to the Teacher Cadet Discipline Policy as outlined in the course requirements.
- Participate and/or observe teaching activities in a variety of settings (preschool, kindergarten, elementary school, middle school, high school, vocational education/career centers, and special education classes, with a special emphasis on critical shortage areas).

- Complete and submit data for program evaluation via a brief pre- and post-survey, including a valid social security number for data collection and reporting purposes only.

High Schools

- Each high school will provide an experienced instructor with exemplary teaching skills to teach the course on a daily basis or the equivalent time; the instructor will not be asked to give up a planning period in order to teach Teacher Cadet courses. (Recommended enrollment is 10-20 students with 15 being ideal.)
- School administrators agree that new instructors will take part in a three-day training session during the summer on the campus of Winthrop University. At this time, the instructor will be trained in strategies for implementing a Teacher Cadet Program and in the use of the curriculum and supplementary resources.
- The school agrees to allow the instructor to take part in training sessions and meetings sponsored and funded by CERRA and to release the Teacher Cadet instructor for a maximum of four days during the school year to attend the annual Pre-Collegiate Fall Renewal Conference and Teacher Cadet College Day at the partnering college/university.
- The school will actively seek to recruit students of color and males in keeping with the need to help expand the future pool of minority teachers.
- At the Center's request, the school/instructor will provide evidence that all students enrolled in the course met the eligibility requirements for participation.
- The school agrees to provide data to CERRA about student enrollment and Teacher Cadet activities at each site.
- The school acknowledges that its site stipend will be based on the number of students enrolled and is awarded based upon available funding. When available, the minimum stipend a class will receive is \$100, and the maximum is \$250. Stipend checks will be issued by semester, and the school agrees to account for the funds upon request.
- The school agrees to give the Teacher Cadet instructor direct access to and decision-making power over the budget earmarked for the Teacher Cadet class(es) from the Center's stipend. The stipend is not to be used to pay the cost of substitute teachers for the Teacher Cadet instructor to attend the required training sessions, conference, or the Teacher Cadet College Day.

- The school principal and the Teacher Cadet instructor agree to complete a written CERRA evaluation of the Teacher Cadet Program at the end of the year and require students to complete a brief pre- and post-survey.

Instructors

- New instructors agree to take part in a three-day training session during the summer on the campus of Winthrop University. At this time, the instructor will be trained in strategies for implementing a Teacher Cadet Program and in the use of the curriculum and supplementary resources.
- The instructor agrees to take part in training sessions and meetings sponsored and funded by CERRA and to attend the annual Pre-Collegiate Fall Renewal Conference and Teacher Cadet College Day at the partnering college/university.
- The instructor will actively seek to recruit students of color and males in keeping with the need to help expand the future pool of minority teachers.
- At the Center's request, the school/instructor will provide evidence that all students enrolled in the course met the eligibility requirements for participation.
- The instructor agrees to teach all the core curriculum components of *Experiencing Education*, Eleventh Edition.

Core Components

Participants in the South Carolina Teacher Cadet network use the Teacher Cadet curriculum, *Experiencing Education*, Eleventh Edition. The curriculum contains a variety of activities and learning experiences. Although instructors are not required to complete every activity in the curriculum, they are expected to cover all components in their Teacher Cadet course(s).

Curriculum Sections

The curriculum for Teacher Cadet-Experiencing Education is shaped around three units: **Experiencing Learning**, **Experiencing the Classroom**, and **Experiencing the Teaching Profession**.

<p>Experiencing Learning</p>	<p>Helps students become better acquainted with themselves as individuals, learners, and community members; appreciate the diversity of others; and examine the various stages of learners</p>
<p>Experiencing the Classroom</p>	<p>Helps students become acquainted with the personal and professional roles of educators</p>
<p>Experiencing the Teaching Profession</p>	<p>Helps students develop a greater understanding of the history of education in our state and nation; gain insights into the structure and functions of our schools and school systems; learn the steps to teacher and educator certification; reflect on the teaching profession and think systematically about it; and recognize the significance of teacher leadership and advocacy for the profession</p>

Core Requirements

- Students will attend a daily, one-period class for two semesters or its equivalent (i.e. year-long 90-minute A/B block, 90 minute block on a 4X4 semester schedule, year-long traditional 50-55 minute block, etc.). Classes will consist of lecture, discovery, discussion, simulation, debate, observations, videotaped lessons, role-playing, problem solving, decision-making, and a clinical field experience in order to expose and educate Cadets about learners, schools, and teaching.
- Students will observe and participate in public school classrooms at the primary, elementary, middle/junior high, and secondary levels. During these observations, students will collect data on the school environment, the students, the teachers, and student/teacher interactions.
- Students will learn about various personnel in the educational system and their responsibilities (e.g., superintendent, principal, curriculum coordinator, school board member, guidance counselor, special education teacher, psychologist, speech therapist, etc.).
- Students will discuss both positive and negative aspects of teaching as a career.

- Students will complete and discuss self-assessments in order to obtain clear pictures of their personal interests and abilities.
- Students will learn about educational career opportunities.
- Students will receive information about the South Carolina Teachers Loan, Teaching Fellows, and other college support options.
- Students will read current articles, professional journals, and books that relate to education and teaching. They will also view educational videos and broadcasts, listen to educational podcasts, and participate in teleconferencing activities with other Teacher Cadets nationally.
- Students will be involved in field experiences and observations within a variety of special education classes. (South Carolina has a critical need for special education teachers, and we find that some students are attracted to this field after they have direct contact with students with special needs.)

Observations

Students will observe in classrooms throughout the year, based on the content of the curriculum. For example, after studying human growth and development characteristics of children ages 6-12, Cadets will observe students of that age in a public school classroom. Observations should be structured and should be based on specific objectives. Prior to these observations, students should be trained in observation skills (e.g., collecting data, making inferences, and drawing conclusions). Students are required to observe in classrooms at the primary/elementary, middle/junior high, and secondary levels. When feasible, provisions should be made for Cadets to observe and participate in a variety of settings, including special education classes, pre-school children programs, remedial/compensatory programs, and vocational/technical programs.

Field Experience

The field experience typically occurs in late fall in a first semester class, early spring in a traditional year-long class, and late spring in a second semester class, during which time the students are placed in a classroom under the supervision of a master teacher. (The timing of the extended field experience for Teacher Cadets on an A/B or 4x4 schedule should be adjusted to allow adequate time for the Cadets to get a complete experience, including bonding with the younger students. This is the magical part of the Teacher Cadet Experience — the hook that will grab potential teachers — and it should be utilized effectively). **The Teacher Cadets may be placed at the elementary, middle, or high school level, depending on their content interest. Cadets should continue to attend their Teacher Cadet class at least one class period each week during the extended field experience in order to plan and process their experiences.**

Types of teaching and observation experiences may include, but are not limited to, the following: peer tutoring; tutoring; serving as an assistant to a master teacher; planning and teaching lessons to a small or large group of students; planning and developing learning centers; serving as a laboratory assistant; and whole group instruction.

Teacher Cadet Curriculum Standards: *Experiencing Education*, Eleventh Edition

Experiencing Learning

AWARENESS AND REFLECTION

- I.1.1: Students will analyze their strengths and areas for improvement as learners.
- I.1.2: Students will evaluate themselves as diverse individuals, learners, and community members.
- I.1.3: Students will determine how diversity enhances the classroom and the community.
- I.1.4: Students will analyze the role of self-esteem in learning and its contributing factors.
- I.1.5: Students will recognize and establish a respectful environment for diverse populations of students in the classroom.

STYLES AND NEEDS

- I.2.1: Students will evaluate different learning styles.
- I.2.2: Students will identify the special needs and exceptionalities of learners and determine how these needs affect the learning process.
- I.2.3: Students will evaluate major physical, social, and personal challenges that can impede successful learning.

GROWTH AND DEVELOPMENT

- I.3.1: Students will differentiate among the physical stages of learners.
- I.3.2: Students will differentiate among the cognitive stages of learners.
- I.3.3: Students will distinguish between the moral stages of learners.
- I.3.4: Students will analyze the steps in the psychosocial stages of learners.
- I.3.5: Students will apply their knowledge of the developmental changes of learners.

Experiencing the Classroom

OBSERVATION AND PREPARATION

- II.1.1: Students will analyze their strengths and areas for improvement as potential teachers.
- II.1.2: Students will evaluate positive and negative aspects of the teaching profession.
- II.1.3: Students will evaluate appropriate instructional objectives after analysis of developmental stages of learners.
- II.1.4: Students will distinguish between effective and ineffective methodologies and teaching strategies and traits in various educational settings.
- II.1.5: Students will analyze ways in which a teacher's personality impacts instructional style and interaction.
- II.1.6: Students will defend effective teaching methodologies and strategies.
- II.1.7: Students will evaluate components of effective classroom climate, management, and discipline.
- II.1.8: Students will incorporate various technologies in the planning of effective instruction and demonstrate its application.
- II.1.9: Students will evaluate various assessment techniques.
- II.1.10: Students will design and deliver an effective lesson for instructor and peer feedback that differentiates instruction to accommodate all learners.

APPLICATION AND INSTRUCTION: THE INTERNSHIP WITH A COOPERATING TEACHER

- II.2.1: Students will implement developmentally appropriate learning activities for all learners in order to build confidence, knowledge and skills.
- II.2.2: Students will accommodate major physical, social, and personal challenges that can impede successful learning.
- II.2.3: Students will apply knowledge of learning styles, multiple intelligences, and Bloom's Taxonomy, Webb's Depth of Knowledge, brain-based strategies for learning, and classroom management to instruction and assessment.
- II.2.4: Students will design and deliver an effective lesson in a classroom setting that differentiates instruction to accommodate all learners.
- II.2.5: Students will apply the components of effective classroom climate, management, and discipline.
- II.2.6: Students will describe, analyze, and reflect on their teaching practices and field experiences.

Experiencing the Teaching Profession

HISTORY AND TRENDS

- III.1.1: Students will identify and analyze the impact of key historical educational events in the United States.
- III.1.2: Students will evaluate various educational philosophies and begin developing their own personal philosophy of education.

STRUCTURE AND GOVERNANCE

- III.2.1: Students will compare and contrast the various types of schooling.
- III.2.2: Students will analyze the governance structure of their local, state, and national educational systems.

CERTIFICATION AND EMPLOYMENT

- III.3.1: Students will investigate careers in education.
- III.3.2: Students will describe the process and structure of teacher certification.
- III.3.3: Students will identify the reasons for teacher shortages and the content and geographic areas that are most greatly impacted.
- III.3.4: Students will demonstrate effective job application and interview skills.

ETHICS AND PROFESSIONALISM

- III.4.1: Students will analyze and interpret the current state code of educator conduct.
- III.4.2: Students will demonstrate how teachers can exhibit leadership as advocates and agents of change for education and their communities.
- III.4.3: Students will identify the services professional organizations provide for teachers.

Course Scheduling

Due to the variety of course schedule formats that exist across the state (traditional 50-minute classes vs. 90-minute block classes and year-long vs. semester block), scheduling site visits may pose some challenges. CERRA has found that a majority of Teacher Cadet sites offer the course as a year-long course or a semester block course during the first semester. However, there are some semester-block Teacher Cadet classes offered during the second semester. College Partner Coordinators need to take these scheduling patterns into consideration when scheduling campus visits and providing other support for the sites in the Partners' network.

CERRA and the College Partnership

CERRA supports the college partnership component of the Teacher Cadet program in many ways.

Program Facilitators

College Partner Coordinators are supported by regional Program Facilitators (PFs) who make site visits to Teacher Cadet classes and college partner campuses. The regional Program Facilitator should be included in planning sessions between college partners and their network schools. They are also available to help with planning and coordinating special events hosted by the college partner during the year for their Cadet sites. PFs can be reached through their mobile numbers and email addresses as noted below.

Region	CERRA Staff	Contact Information
Region 1: Upstate	Rona Neely Program Facilitator	Email: rona@cerra.org Phone: 864-682-0046
Region 2: Savannah River	Rachel Toole Program Facilitator	Email: rachel@cerra.org Phone: 803-682-0424
Region 3: Midlands	Arthur Pinckney Program Facilitator	Email: pinckneya@cerra.org Phone: 803-429-8312
Region 4: Pee Dee	Theodore Jackson Program Facilitator	Email: theodore@cerra.org Phone: 803-549-1906
Region 5: Lowcountry	Kelly Browder Program Facilitator	Email: kelly@cerra.org Phone: 843-442-1735

Curriculum Training

Each new College Partner Coordinator will find the Teacher Cadet curriculum training extremely helpful. Training is held annually each summer.

College Partner Meetings

Each summer, prior to the beginning of the academic school year, the College Partner Coordinators meet in Columbia to discuss plans for the year and share ideas with other coordinators in the network. College Partner Coordinators also meet during the Fall Renewal Conference in Myrtle Beach, SC.

Stipends

The College Partner Coordinator may be able to receive a stipend of **up to \$250** for each site that it supports. This money is to be used to enhance the efforts and support offered through the college partnership, including the procurement of speakers for the Teacher Cadet classes, books, videos, professional magazines or periodicals, and to help defray the cost of tuition or admission charges when the college grants college credit to the Cadets in their network. In order to be eligible to receive site grants from CERRA, any Facilities & Administrative (F & A) costs normally charged by an institution must be waived. A financial report is required at the end of each school year.

Conference

A three-day Pre-Collegiate Fall Renewal Conference, which focuses on the latest issues and trends in education as well as professional development related to the Teacher Cadet Program (and other CERRA programs), is held annually in October or November. At the conference, College Partner Coordinators have the opportunity to share ideas and concerns with other coordinators from across the state and have time to plan and work with Teacher Cadet instructors in their network. One of the primary purposes of the combined conference is for Teacher Cadet instructors and College Partner Coordinators to build a greater sense of collegiality.

Resources

All materials and resources housed at CERRA are available for use by College Partners. These include curriculum-related videos available for loan (as listed in the Teacher Cadet curriculum and on the online Video Library Request Form) as well as handouts relating to teacher supply and demand, financial aid, and other teacher recruitment materials, such as TC one-pagers. Materials may be requested simply by phoning, faxing, e-mailing, or writing the Center.

How to Start a College Partnership

Once the college has decided that it would like to serve as a college partner, it should contact CERRA to find out about interested high school partnering sites. Once high schools indicate to CERRA that they are ready to establish a college partnership, CERRA will provide information about possible partnership institutions, whom to contact at the college, and facilitate initial contact between the college partner and the Teacher Cadet instructor.

Issues to Consider for the Partnership

The college partner and Teacher Cadet instructor should work through the following issues utilizing the planning sheet provided in this handbook:

- The number of visits the College Partner Coordinator or other college staff will make
- The type, number, and scheduling of guest speakers
- The materials/resources the college will provide and how these can be obtained
- The special programs that the college partner will provide (e.g., College Day, regional conferences, student/parent receptions, etc.)
- The scheduling of additional planning sessions (at a minimum, college partners and Teacher Cadet instructors should meet once prior to the beginning of school)
- The granting of college credit
- Registration, tuition, and textbook concerns
- Discussion of how the stipend can be used to enhance the partnership
- Maintaining contact through telephone calls or email

Section Two: The Partnership at Work: A Worksheet

Planning for the Partnership

1. The course will be offered for credit.
 - a. How many hours of credit will be offered? _____
 - b. How will students be registered? _____
 - c. Will tuition be charged? ___ No ___ Yes How much? _____
 - d. Who will pay? _____
 - e. For what course(s) will Teacher Cadet count? _____
 - f. Will the Teacher Cadet credit be accepted from other schools outside your partnership?
___ Yes ___ No

2. Will **students** be required...
 - a. to follow a prescribed college syllabus? ___ Yes ___ No
 - b. to purchase a college textbook? ___ Yes ___ No
 - c. to take a college exam? ___ Yes ___ No
 - d. to complete other college requirements? ___ Yes ___ No
If yes, please specify _____

3. If CERRA and college **curricula** are to be used together, how will they be coordinated and/or integrated to provide course continuity?

4. How will the partnership ensure that all **fundamental curriculum components** required by CERRA are included in the course?

5. By what method will the school and college partner develop **instructional plans** that describe each person's responsibilities during the Cadet course?

A. prior to school: _____

B. throughout the year: _____

What **resources** will the college provide to the Cadet class?

(A minimum of three visits/speakers per semester as well as planning time with teachers and coordination of special events for Cadets is strongly recommended if the college is working with one to three TC sites.)

_____ **college faculty**

a. How many days each month will the college partner provide instruction? _____

b. Will other college faculty provide instruction? ___ Yes ___ No

c. How will they be identified? _____

_____ **guest speakers**

a. How many speakers will be provided per semester? _____

b. How will speakers be identified? _____

c. Who will contact and schedule speakers? _____

d. Will speakers receive compensation? _____

_____ **on-campus activities / College Day**

a. tour of campus? ___ Yes ___ No

b. visit to on-campus lab school? ___ Yes ___ No

c. visit to other education labs? ___ Yes ___ No

d. visit education classes? ___ Yes ___ No

e. library orientation? ___ Yes ___ No

f. other? _____

_____ **library privileges/ID cards**

a. How will students obtain library/ID cards? _____

b. How will students learn to use the library? _____

_____ **access to film/video libraries**

a. Who will arrange for teachers' access? _____

b. How will the teacher learn what is available? _____

Compensation for the College Partner Coordinator

Although serving as a College Partner Coordinator is tremendously satisfying, it is still important for colleges to recognize and reward this work. First and foremost, Coordinators need the time to devote to the Teacher Cadet program. Most colleges consider the Teacher Cadet course as part of the professor's full-time teaching load. The number of credit hours allotted to the coordinator is generally dependent on the type of services offered and the number of schools involved.

Teacher Cadet sites vary in schedules within a partnership. Some sites have block scheduling while others remain on traditional, year-round schedules. Further, sites on block schedules may meet one of two semesters. Therefore, it is essential that College Partner Coordinators plan to work with all sites, both semesters during the academic year.

Creative Alternatives

In a time of budget shortfalls, colleges may need to be creative in developing avenues for compensating their coordinators. If the college does not feel that it can allow the suggested amount of credit listed above, it may consider other rewards, such as those listed below:

- Favorable recognition in the promotion and tenure process for serving as a College Partner Coordinator;
- Monetary stipend from the Teacher Cadet stipend or other funds;

Team Teaching Approach

Some colleges have found it best to use a team approach for working with the Teacher Cadet Program. Teacher Cadet instructors love the idea of team-teaching with their respective College Partner Coordinator.

Section 3

Section Three: Beginning-of-the-Year (BOY) and End-of-the-Year (EOY) Paperwork

Partnership Forms

Paperwork is required of all college partners twice a year– at the beginning of the academic school year and at the end. **All of the data that you provide to us are essential** as we work to improve our services, make budgetary plans from one year to the next, and use your suggestions to make curriculum and procedural decisions.

We are often asked to share data and compile reports based on the number of Teacher Cadets that enter the world of work as a certified teacher and the collaborative efforts with college partners. With your **accurate and timely data**, CERRA increases its chances to be able to reestablish funding for the Teacher Cadet program.

The CERRA staff is always willing to assist you in any way we can. If you have any questions or concerns, we're only a phone call away at 800-476-2387. Please feel free to call/email Carrie Hamiter (ext. 2378/ carrie@cerra.org).

Planning a Budget

Stipends

Careful budget planning is important. The stipend from CERRA is given to the colleges to enhance the effectiveness of the college partnerships. At the end of the year, colleges are required to document in which way(s) they utilized the stipend by submitting to CERRA a Financial Report Form.

A number of colleges opt to provide scholarships for Teacher Cadets in their network – using a portion of their funds.

The Center recommends that colleges begin the budgeting process by determining how much money will be necessary to fund the program, including travel for the College Partner Coordinator, money for speakers from the college, and other expenses. After this initial phase has been completed, it is helpful to include the high schools in a discussion of the way that the remaining funds can best be used to enhance the partnership, such as the purchasing of video resources or children’s literature or a textbook for the class library. Additionally, should College Partners have funds remaining in their accounts from site grants received from CERRA, they are allowed to “carry over” those funds into the next fiscal year for program support. To do so, please request a “Carry Over Funds” Memorandum from CERRA for this purpose. Sample budgets are included in this section to assist in the budget planning process.
